## Professional Summary

---

Results-driven Mobile App (Flutter/Dart) and Frontend Developer with a strong logical and analytical foundation rooted in a Second Class Upper B.Sc. in Mathematics. Proven ability to translate complex business requirements into scalable, user-centric digital solutions, including the successful deployment of a full-scale e-commerce platform for Adeeva Gadget Store. Passionate about building high-performance cross-platform applications that balance clean architecture, efficient state management, and premium UI/UX.

## Core Technical Skills

---

- **Mobile Development:** Flutter, Dart, State Management (GetX), API Integration.
- **Frontend Development:** HTML, CSS, JavaScript , Responsive Web Design.
- **Backend & Tools:** Firebase, Firestore.
- **Other tool set:** Github

## Key Projects

---

### Full-Stack E-commerce Platform

- Engineered a high-performance e-commerce website using Dart, Flutter, Javascript and Firebase featuring a dynamic product catalog and real-time category filtering.
- Implemented a secure shopping cart and checkout workflow, improving user experience and conversion flow from product discovery to purchase.
- Designed and integrated a custom admin dashboard for inventory management and order tracking.

### CBT Quiz Application | Lead Developer

- Developed a template in building a CBT-style website for University of Ilorin 100-level mathematics students, simulating a real Computer-Based Test environment.
- Implemented core test logic and question handling using JavaScript, improving student familiarity with CBT systems.
- Integrated a local data structure to manage course questions, enhancing preparation efficiency and usability.

## Professional Experience

---

### Freelance: Mobile Developer

2024 – present

- Built a Fullstack Ecommerce Application designed for a modern online shopping experience, featuring dynamic product catalog, interactive shopping cart and paystack integration for seamless payment

- A world Clock App designed to track the current time across major cities in the world, a Time API fetches the standardised global time data, ensuring accuracy and real-time update

## Kings Dave IT Solutions | Lagos, Nigeria

### Freelance: Web Developer

2022 – 2024

- Developed responsive and accessible web interfaces for firms and small businesses, with attention to SEO best practices.
- Built and maintained custom business websites using **HTML, CSS, and JavaScript**.
- Consulted with small business owners to digitalize operations and expand online presence.

## Education

---

### University of Ilorin

B.Sc. Mathematics — Second Class Upper (2.1)

2021 – 2025

- **Relevant Project:** Research on the Numerical Approximation of *Bateman–Burgers Equation* using the Sumudu Variational Iteration Method and Adomian Polynomial Expansion.

## TOP Projects

---

- [Quadrant Networking Application](#)
- [Adeeva Ecommerce Application](#)
- [Quiz Website \(CBT\)](#)
- [World Clock](#)

## Soft Skills

---

- Strong analytical and problem-solving skills backed by mathematical training
- Comfortable working independently or within collaborative development teams
- Actively building and refining Flutter-based projects
